Team USB Drive Color Series | C162

A Combination of Cold Metal and Minimalist Colors

Team Group combines tough metal and soft colors, two conflicting elements to create C162: USB drives that are both durable and gentle.

C162 is using the fastest USB 3.1 gen 1 interface (USB 3.0) to suit our performance seeking business users and enthusiastic players. By cleverly combining the toughness of Zinc Alloy and the softness of the mysterious black color, the beauty of integration from two different materials can be brought out ingeniously.

Ergonomic structure design, for even easier, more comfortable use

C162 USB drives also improve the convenience of users by adding an ergonomic structure design at both sides of the bottom for even easier, more comfortable use.

COB assembly process which offers an all-around protection in waterproof and dust-proof

Its unibody design and the COB assembly process offer capabilities of splash proof, dust proof and shockproof, so the data will be safe and secure even from external damages. With the plug and play design, it is able to expand the storage capacity of desktop and laptop at any time.

Main Feature

- ☐ Design with a combination of cold metal and minimalist colors
- ☐ Ergonomic structure design at both sides of the bottom for easier, more comfortable use
- ☐ High quality and tough Zinc Alloy material. Capless design eliminates the problem of losing the cap
- ☐ Unibody design and COB assembly process technology offer excellent capabilities of water proof, dust proof and shockproof
- ☐ Product warranty – lifetime warranty with free technical support service

Specification

Item	Specification
Model	C162
Interface	USB 3.1 Gen 1 (USB 3.0)
Capacity	16GB / 32GB / 64GB
Color	Black
Data transfer rate	Read: up to 85 MB/s ; Write: up to 20 MB/s**(32GB and above)
Weight	3.4g
Voltage	DC 5V
Dimensions	24 x 12.2 x 7 mm
Operation System	Windows Vista / 7 / 8 / 8.1 / 10, MAC OS X v.10.6.x+, Linux v.2.6.x+
LED Reveal	No
Warranty	Lifetime warranty

*1GB=1,000,000,000 Bytes. In OS system, it would be displayed as 1,000,000,000 Bytes/1024/1024/1024 = 0.93GB.

**Transmission speed will vary according to different hardware / software conditions, therefore the data can only used for basic reference.
