A+ Layout with Images and Text

Layout for reference 1

There're two ways that we recommend for layout of A+ column:

1. Use pictures only: we add some description for each of the A+ images, please use them in the right order.
2. Use pure images with texts: to make sure the layout is clear and the words are not overwhelming, please remove the words on each photo and match them with the correct selling point expression.

Either one you use, please use the PSD file to translate the copywriting into local languages.
