d2

THUNDERBOLT™2

DESKTOP DRIVE
Data Sheet

Proven Design, Redefined. With SSD Speed Potential.

- Professional speeds of up to 220 MB/s[1]
- USB 3.0 and dual Thunderbolt 2 ports for universal compatibility
- Aluminum unibody for reduced noise and vibration
- Boost speeds up to 1150 MB/s with d2 SSD Upgrade[2]

design by neil poulton

Product Overview

LaCie has redefined a proven design with the new d2. Featuring Thunderbolt 2, USB 3.0, and a professional Seagate 6 TB 7200 RPM hard disk, the LaCie d2 delivers superb performance for heavy data users. It's even possible to boost speeds to up to 1150 MB/s and add 128 GB of SSD storage by installing the LaCie d2 SSD Upgrade (sold separately). Additionally, the LaCie d2 features an innovative all-aluminum unibody enclosure for incredible durability and low vibration.

Use Cases

- Digital Library Storage: Huge capacity and high speeds make this product a perfect solution for storing and browsing a massive RAW Adobe® Lightroom® library.
- Audio Mixing: Make the LaCie d2 Thunderbolt 2 the ultimate solution for audio projects by installing the d2 SSD Upgrade. SSD speed lets pros mix hundreds of audio tracks simultaneously, and large hard disk capacity lets them store final projects.
- Video Editing: The LaCie d2 with the d2 SSD Upgrade installed provides enough bandwidth to edit GoPro® footage with zero lag, and the hard disk capacity lets them archive footage and final projects.
- Fast Project Copying: Move files incredibly quickly from the LaCie d2's SSD to a LaCie Rugged Thunderbolt SSD, reducing the time needed to deliver projects to clients. Then, free up the LaCie d2's SSD space by moving the completed project to the LaCie d2's hard drive as a background task.

1 These transfer rates were achieved using AJA System Test when connected to a Mac computer via the Thunderbolt 2 interface.

2 These transfer rates can be achieved by installing the LaCie d2 SSD Upgrade on a LaCie d2 Thunderbolt 2. The LaCie d2 SSD Upgrade is only compatible with the LaCie d2 Thunderbolt 2.

System Requirements

- Computer with a Thunderbolt™ 2, USB 3.0, Thunderbolt, or USB 2.0 port
- Thunderbolt 2: Latest version of Windows® 7, Windows 8 / Mac OS® X 10.8.5 or later
- USB 3.0: Windows 7, Windows 8, or Mac OS X 10.6 or later
- Minimum free disk space: 600 MB recommended

What's Included

- LaCie d2 Thunderbolt 2
- Thunderbolt cable
- USB 3.0 cable (USB 2.0 compatible)
- External power supply
- Quick Install Guide
