

# Mi True Wireless Earphones 2

ID: 26332 SKU: ZBW4493GL

## True Wireless Stereo

- Mi True Wireless Earphones 2 offer premium sound and call quality without annoying tangled cables.

## AAC/LHDC Support

- The earphones support AAC and LHDC, which are audio codecs with a premium sound quality.

## Double-Tap Control

- Tap the earphones twice to access the control of music, call, or voice assistant.

## Automatic Pop-Up Pairing

- For supported Mi smartphones, the earphones could be paired via a pop-up window easily and quickly,

## In-Ear Detection

- The built-in optical sensors will help your pause the music when either one earphone is removed.

## Stable Bluetooth 5.0 Connection

- The upgraded Bluetooth 5.0 processor greatly improves the connection stability.

## Ergonomic Design

- The half in-ear design provides the maximum comfort and the best fit for a long-time use.

## Single-Ear Mode

- There is no need to pair again when you want to use only either left or right earphone.
