

NGS GAMING MOUSE GMX-105

7 COLORS LED, PROGRAMMABLE BUTTONS, GAMING MOUSEPAD

NGS GMX-105 is an optical sensor wired mouse for computer games equipped with 8 programmable buttons and 4 adjustable DPI levels 800/1200/1600/2400. It features three working modes: Office & Gaming & Multimedia tailored to the specific needs of the user.

This mouse outstands for its great ergonomics, you will enjoy long gaming sessions without growing tired.

Furthermore NGS GMX-105 features Teflon feet to ensure a perfect glide in any surface and a 1.5 meters double nylon braided cable with USB connection for best performance and mobility.

It offers a spectacular lighting design with seven-colour LED lighting adjustable for a 100% gaming look.

GMX-105 provides maximum accuracy and control thanks to its eight professional gaming buttons capable up to ten million keystrokes and high speed scroll wheel for fast move. The mouse includes advanced software to programme buttons, macros and lights so that you can customize up to five gaming profiles.

Furthermore the mouse incorporates a free mousepad. The mousepad features an exclusive NGS design and has a large size. Dimensions (315x240x3mm)

The base is made of antislipping rubber that prevents the pad from sliding and offers extreme comfort while playing.

The reinforced edge of the mousepad is designed to ensure maximum durability. The optimized surface texture has been developed for optimal accuracy and smooth control, it works with all mouse sensitivities and sensors
